

Choice: COVID19.exe

The idea of the game is to spread awareness to as many people as possible about how the virus spread. Game will show how the virus spread and how to deal with it. In the game player will need to complete every day routine(quests) like going to shop or to work, coming back using public transport and so on. For every single quest player will receive posits which will show if he is safe or if he is expose to the virus. Game end is the player is testes positive for the virus at the end of the day.
